## WHEEL HUBS

## BRAKING

We understand the need to have your vehicle back on the road as soon as possible. Working with Stud Extract we can refurbish wheel hubs with the minimum of disruption. Stud Extract are leaders in HGV wheel hub services, and have their new products independently tested and certified to make sure that they are comparable with the original manufacturer's equipment. All the hubs are fully guaranteed and are fitted with FAG bearing as standard.

Brake pads are incredibly important to the running and safety performance of any commercial vehicle. With tougher demands compared to regular cars and vans, commercial vehicle brake pads need to be more robust.

Our range of brake products offer exceptional value as well as meeting the most stringent safety standards for all the main HGV and truck manufacturers.

We have a wide range of filters for all marques of light commercial vehicles

## FILTERS

We want you to get the best out of your engine and maximise its efficiency and life span. In order to do this, it is critical to enhance engine performance and reliability through the optimum flow of clean air, oil and fuel, separating the harmful from the useful.

To do this we provide a comprehensive range of filters that cover 98% of the vehicle parc. All are 100% OE spec, and we carry an extensive CV and LC filter range in stock meaning excellent availability.

## WIPERS

Windscreen wipers are prone to wear and damage, meaning that your windscreen wipers can start to deteriorate very quickly making it difficult to see where you're going when you need them most. Signs of wear or damage to wiper blades are obvious with smearing on the glass, and also if you run your finger along the rubber strip on the windscreen wipers themselves. If you notice any unevenness or gaps, your wiper blades won't be working to the highest standard and it's time to change them.

Part No.	Vehicle & Description	Net Price
SCV24W	24" Wiper Blade with Washer Jet	£3.77
SCV28W	28" Wiper Blade with Washer Jet	£5.07

## REMANUFACTURED CALIPERS

## AIRSPRINGS

**Firestone**

The process involved in the remanufacturing of our calipers is arduous with great attention to detail. Only those components passing every stage of inspection and engineering, progress to completion. No corners are cut to reduce price or quality. The high standards set by the our supplier ensure that all units meet the quality requirements of safety-critical equipment. This means for you the customer a caliper as good as new for a fraction of the price.
